Under the 'Services to Community & Economy Scheme of the **Technical Education Quality Improvement Programme (TEQIP) of the Govt. of India**, project proposals are being invited from the Interested undergraduate students of different engineering colleges & universities. The selected projects may be included in future in curriculum or may be taken as UG project work. The aim is to involve the students & teachers on community development services by making them aware of '*how to transfer technology to society*'. The work areas should involve 2 or more teachers from different departments & at least 3 students from different disciplines because solution of real life problems involves knowledge of different disciplines.

Suggestive areas:

- traffic congestion problem
- drainage problem
- waste management of locality
- local pollution control
- water supply problem
- energy related problems
- rain water harvesting
- software application for societal problems etc.

The project proposal should contain

- (i) Objective
- (ii) Name of the teacher guide / guides
- (iii) Area chosen
- (iv) Methodology including experimentation (field/lab), if any

- (v) Outcome in concrete terms
- (vi) Estimated cost of the project (max. 5 lakhs)
- (vii) Estimated time of the project (max. 1 year)

Eligibility: Only the 2nd, 3rd and 4th year students of undergraduate discipline of engineering colleges and universities are eligible to submit their project proposals.

The project proposal(A – 4 size, typed) should not be more than 6 pages, (font size – 14 & font style – Times New Roman). A soft copy has to be submitted also.

There will be a review of the projects submitted by a National Level Committee and the selected 10 projects will have to be presented in front of the students on 31st March'09 at Jadavpur University. There will be substantial award for the winning project proposals.

The last date of submission of such project is 20th March'09 and are to be submitted to:
