WORKSHOP OVERVIEW

Laser material processing group (LMPG), J.U., incepted in 1993 under the sponsorship of Department of Atomic Energy, Govt. of India, had been pursuing collaborative research and development program with industries, R&D and academic institutions involving experts from multidisciplinary fields of science and technology from India and abroad. LMPG blossomed into School of Laser Science & Engineering (SLSE), J.U. in 2002.

In continuation of the program adopted by LMPG in manpower development through holding WORKSHOP on APPLICATION of LASER in MECHANICAL INDUSTRIES, biennially since 1996, School of Laser Science & Engineering proposes to hold the seventh workshop in the series during January 7-8, 2010. The workshop aims at disseminating knowledge by experts in the fields of laser fundamentals, traditional and non-traditional materials processing.

SCOPE OF SEMINAR

Further, with the aim of exchanging state of the art knowledge in the fields of materials processing and its application, a two-day seminar will be organized during January 8-9, 2010. Papers are invited on the following theme :

- ☞ Laser materials processing
- ☞ Laser safety
- ☞ Laser based instrumentation
- ☞ Laser Micromachining
- ☞ Any other related topic

Acceptance of contributed papers will be decided on the basis of review of extended abstracts (500 words) as per the following deadlines.

IMPORTANT DATES

Abstracts due (500 words) : 05.10.2009

Notification of abstract acceptance : 15.10. 2009

Deadline for submission of full paper: 30. 11. 2009

Electronic submissions of abstract and full-length paper are encouraged for speedy processing. Indicate e-mail address of the author to whom all correspondences are to be made. The proceedings containing keynote lectures, invited and contributed papers and workshop material will be made available to all the registered participants.

TARGET PARTICIPANT

The workshop and the conference will be beneficial for manufacturing and production engineers, material scientists from industries, academic and R&D institutions. The meet will be an informal and lively occasion and the organizers wish to encourage attendance by graduate students and researchers. The organizers propose to award prizes for best papers.
